## Microcomputer Control for Existing Vertical Screw Compressor Chiller Systems

Selected Dunham-Bush equipment can be retrofitted with Microprocessor Control.

The benefits to you are:

- Improved operating efficiency, reduces your running costs.
- Optimum matching of equipment duty to building or process load reduces your running costs even further.
- Better control, reduced offset, overshoot and hunting, provides increased system stability.
- Improved reliability with the introduction of stable solid state control.
- Extended life of your equipment through reduced stress.
- Remote monitoring of the equipment via modem link to our response centre over standard telephone lines. This ensures a fast response together with the ability to diagnose problems remotely.

# SPARES

## You benefit from

- A dedicated parts inventory.
- Thousands of off-the-shelf parts and components.
- Replacement chiller, condenser vessels.
- Prompt despatch.
- Other manufacturers spare parts
